

## **Loan Funds for Water & Sewer Line Moves for Road Construction Projects**

The State Revolving Fund (SRF) can fund the costs to municipalities, towns and water districts when new road construction projects require existing water and sewer mains and lines to be moved.

The SRF offers competitive interest rates and repayment terms. For more information, call David Price at (803) 898-3993, or visit [www.scdhec.gov/environment/water/srf.htm](http://www.scdhec.gov/environment/water/srf.htm).
